OVERVIEW

A complex network diagram on the left side of the slide, featuring a dense web of interconnected nodes and lines. The nodes are colored in shades of pink, purple, and blue, and the lines are thin and light-colored, creating a mesh-like structure that resembles a molecular or digital network.

XTime, from El Salvador. The President of El Salvador, Nayib Bukele, gave everyone in El Salvador a chance to have X. Hopefully, this opportunity can be brought to everyone in the world through XTime.

Unknown, so unlimited imagination.
We have X, so we have imagination.
Unknown, so passionate.
We have X, so we are passionate.
Unknown, so have a future.
We have X, so we have the future

An abstract network graph background consisting of numerous interconnected nodes and edges. The nodes are colored in a gradient from light blue to pink, and the edges are thin, light-colored lines. The graph forms a complex, organic shape that resembles a stylized letter 'X' or a cluster of interconnected nodes.

02

What is XTime

XTime Token is based on BSC and is currently the only Token with the background of the Republic of El Salvador. XTime will be committed to building an ecosystem belonging to the community. Based on BSC, it will develop the DeFi protocol and will launch a cross-chain revenue aggregator XTime1.0. Users only need to mortgage their encrypted assets to automatically obtain revenue, and the revenue is all BTC. XTime will also launch BSC-based NFT games in the future, including NFT collections, all of which will use BTC as a means of revenue acquisition or payment.

XTime's future goals are undoubtedly inclusive and powerful. In the future roadmap, XTime's goal is to establish a cross-chain financial infrastructure, unlock the Internet of value, and at the same time cultivate a strong community, and will support the willingness to use BTC and XTime as payment methods.

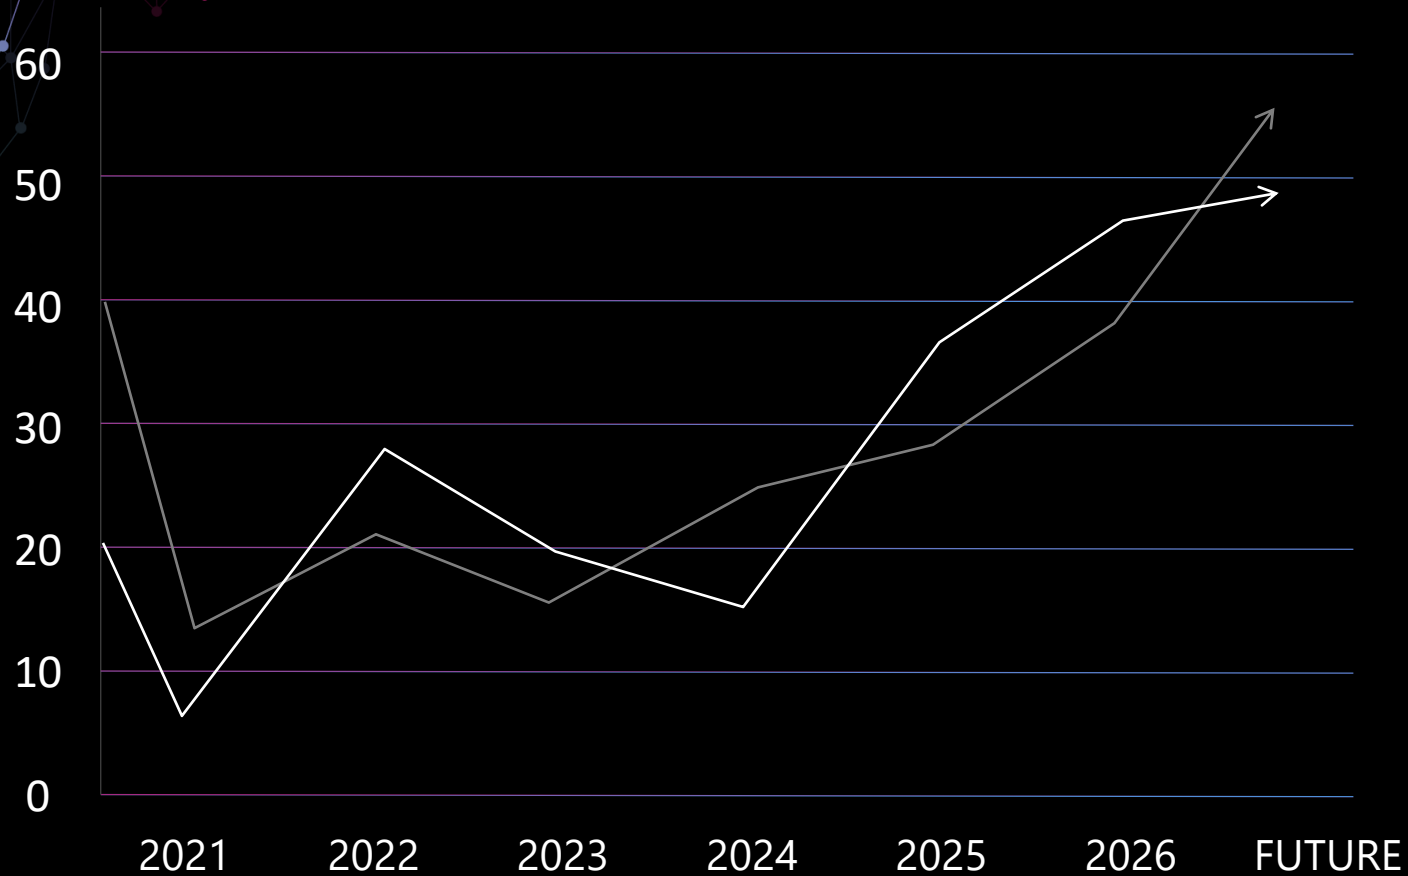

03

Dividend System

ROI OF XTime

We have created a unique dividend system, each token holder can automatically receive dividends.

You buy tokens and hold them. You will automatically receive BTC in your wallet every 30 minutes you hold them. No action is required. Please note that holders need to own at least 200 000 tokens to receive dividends every half hour.

Token Information

Token Information

■ Into the black hole ■ Private placement ■ Marketing ■ Charitable
■ Law ■ Pre-sale ■ Liquidity

Network: Binance Smart Chain (BEP-20)

Token Name: XTime

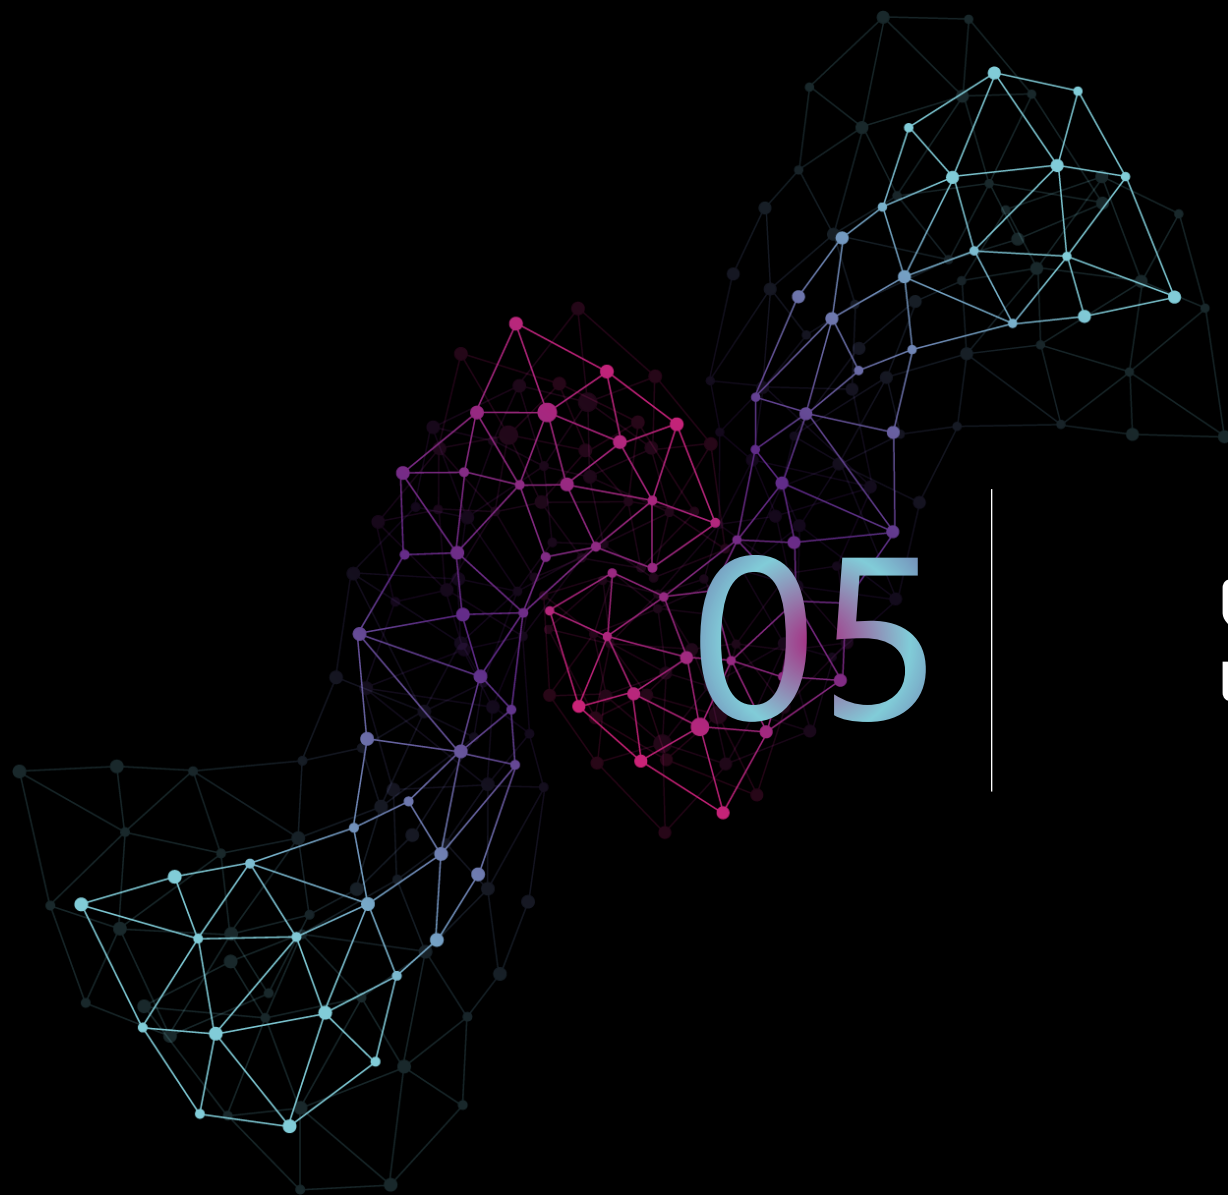

Contract address:

0xFF2BF41EC57b897c914E2BAac857D621f4CB1691

TOTAL SUPPLY :

420,000,000,000

Unlock Date : 1 year minimum

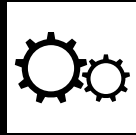

05

Security of XTime

Security of XTime

Maximum sales:

Any transaction that sells more than 0.2% of the total supply will be rejected. This prevents large-scale one-off sales that drastically change the price of tokens.

Additional 1% sales fee:

Swing trading is a common strategy that can affect price behavior. In order to incentivize holdings and reduce skyrocketing/pumping dynamics, we added an additional 1% selling fee on top of the initial 15% transaction fee.

06

Other Characteristics

We work hard to increase transparency and ensure the safety of the smart contract. We will be able to ensure that no bugs will be found

Lock in liquidity

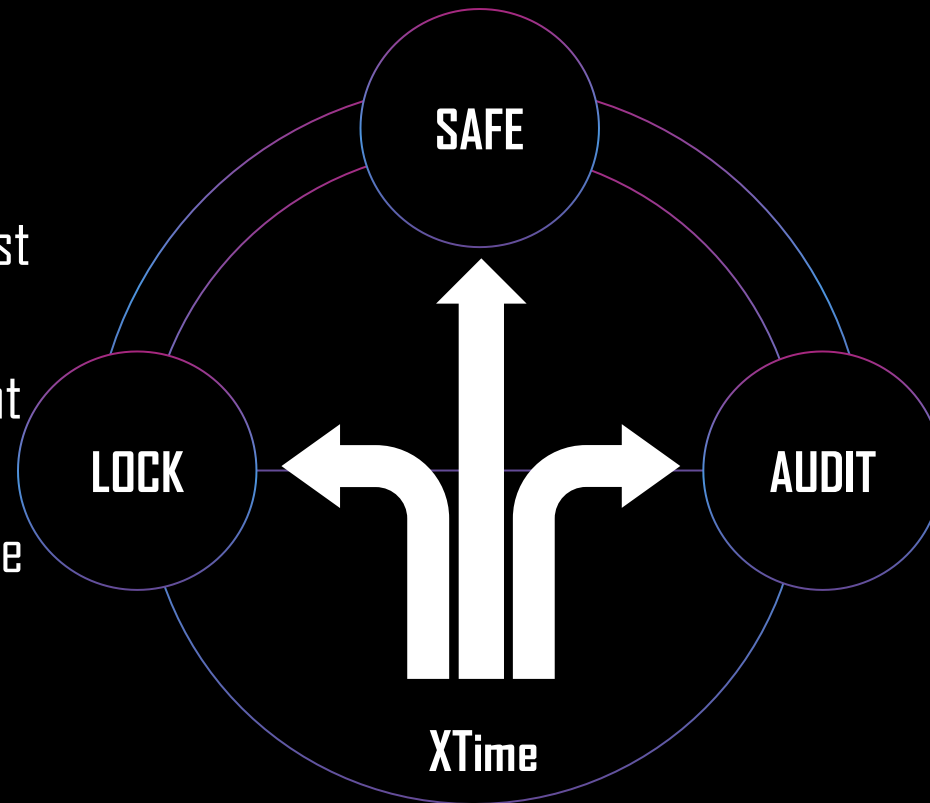

The initial liquidity will be locked for at least 1

year, so that holders can rest assured that tokens can be exchanged at any time.

The trusted third party DXSALE will operate as

an intermediary to ensure that all raised liquidity is locked in the liquidity pool throughout the entire time frame.

Pre-launch contract audit

- Integer overflow
 - Integer underflow
 - Deep call stack attack
 - Timestamp dependency
 - Parity multi-signature error
 - Transaction order is dependent
- The token contract is verified and can be viewed on BSCscan

RoadMap

X—1—Time

Website publishing
The size of the community exceeded 5,000 people
XTime Token released
Marketing promotes the formation of community consensus
Development of chain revenue aggregator XTimeSwap1.0

X—1—Time

X—2—Time

X—2—Time

Influence marketing continues to promote
Complete a third-party audit
The size of the community exceeded 10,000 people
Coin holding address breaks through 1000
Cross-chain revenue aggregator XTimeSwap1.0 launched

X—3—Time

World-class mainstream media influence marketing promotion
The size of the community exceeded 50,000
Coin holding address exceeded 10,000
Cross-chain revenue aggregator XTimeSwap2.0 upgrade
NFT collection enters audit
First donation through UNICEF

X—3—Time

X—4—Time

X—4—Time

World-class mainstream media influence marketing continues to promote
The size of the community exceeds 100,000
Coin holding address breaks through 50000
Cross-chain revenue aggregator XTimeSwap2.0 launched
NFT collection launched

X-5-Time

Increase marketing drive
The size of the community exceeded 150,000 people
Coin holding address exceeds 100,000
Cross-chain revenue aggregator XTimeSwap3.0 launched
NFT game code audit and launch
Second donation through UNICEF

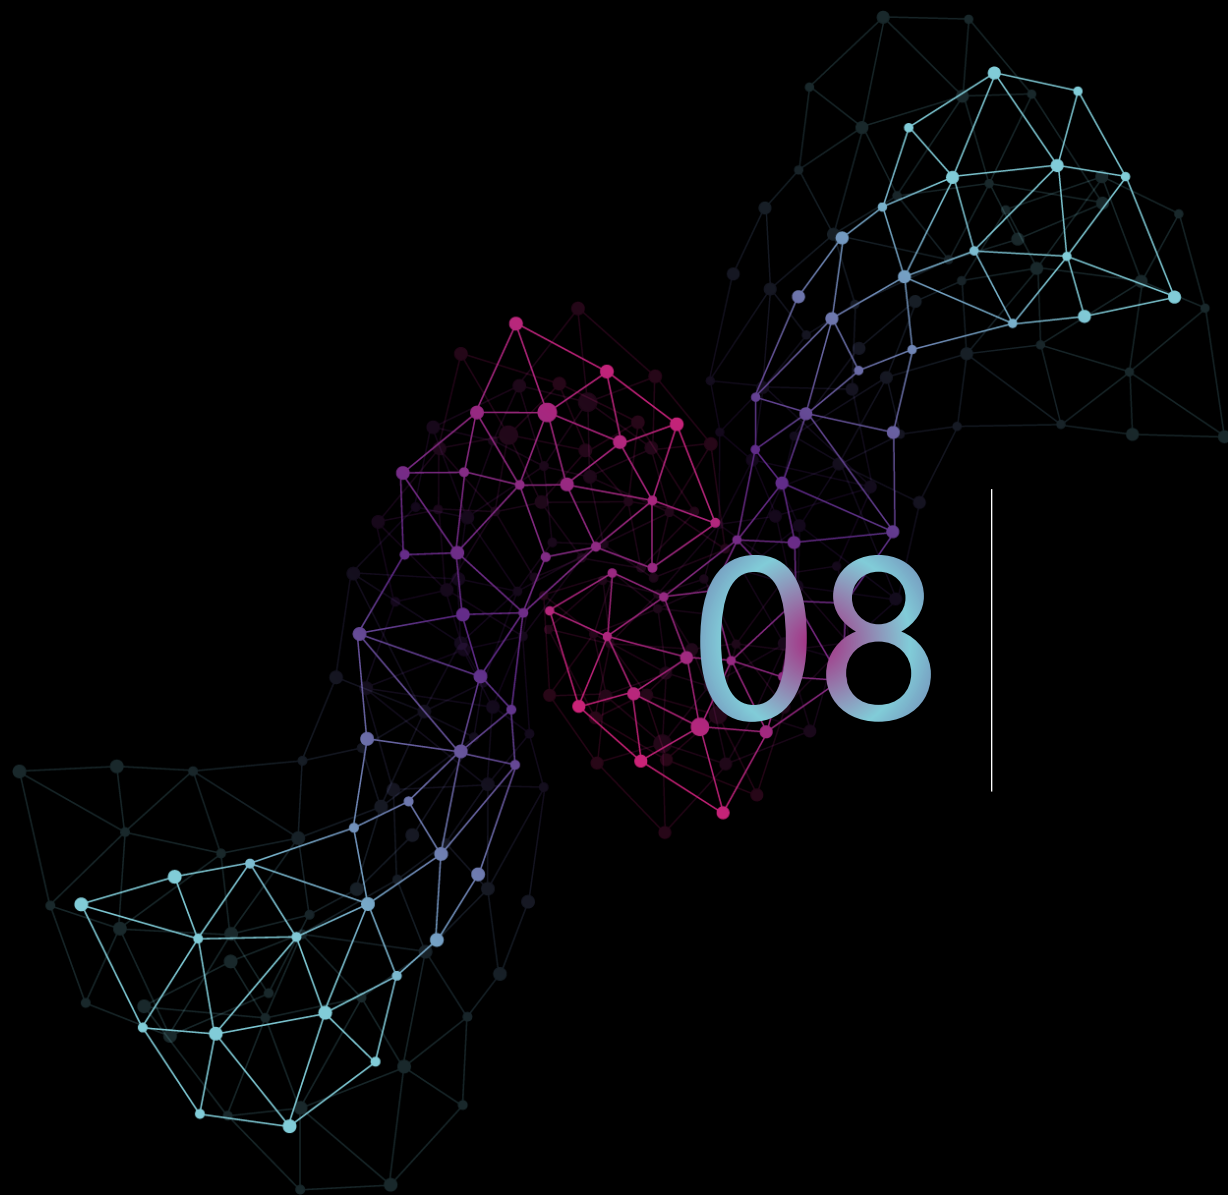

X-5-Time

X-6-Time

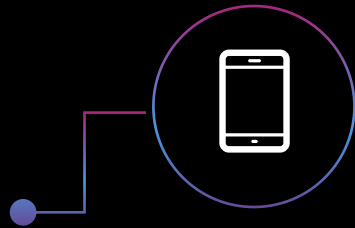

FUTURE

X-6-Time

World-class mainstream media influence marketing promotion
The size of the community exceeded 500,000
Coin holding address exceeded 150,000
Cross-chain revenue aggregator XTimeSwap2.0 upgrade
NFT collection enters audit
First donation through UNICEF
